

Relieve Pain & Cleanse Your Body With Long Wave Infrared Rays and Negative Ions

Bio-Mat 2000™ is made with natural jade. When the jade is heated, it emits long wave infrared rays that penetrate the body 14-15cm (5.5 to 6 inches). The rays not only benefit the muscles on the surface of the body but also benefit *all cells*, including blood vessels, lymph glands and nerves deep in the body. These rays vitalize the biological function of our cells and increase circulation, relieve neuralgia, backache and arthritis pain, eliminate toxins and carbon dioxide from our blood and perform antibacterial functions.

New Amethyst Bio-Mat Professional

The Bio-Mat™ provides the following benefits:

- ***Improves the Immune System***

The deep heat produced by the Far Infrared Rays raises your body temperature, inducing an artificial fever. As it works to combat the "fever", your body's immune system is strengthened. Combined with the elimination of toxins and waste produced by the intense sweating, your overall health and resistance to disease is increased.

- ***Improves Skin***

The profuse sweating achieved after just a few minutes in the Bio Mat carries off deeply imbedded impurities and dead skin cells, leaving the skin glowing and immaculately clean. Increased circulation draws your skin's own natural nutrients to the surface.

- ***Reduces Stress and Fatigue***

The gentle warmth of your Bio-Mat gives you an overall massaging effect, soothing jangled nerves and knotted muscles. You'll feel rejuvenated and renewed, restored in both body and mind.

- ***Increases Blood Circulation and Strengthens Cardiovascular System***

As your body increases sweat production to cool itself, your heart works harder pumping blood at a greater rate to boost circulation.

- ***Eases Joint pain and Stiffness***

Far Infrared Ray heat therapy is widely used to treat patients suffering from many forms of arthritis. In addition, it has been proved effective in the treatment of sprains, neuralgia, bursitis, muscle spasms, joint stiffness and many other muscular-skeletal ailments. Much of the stiffness, aches and soreness that comes with aging is reduced or eliminated.

- ***Burns Calories and Controls Weight***

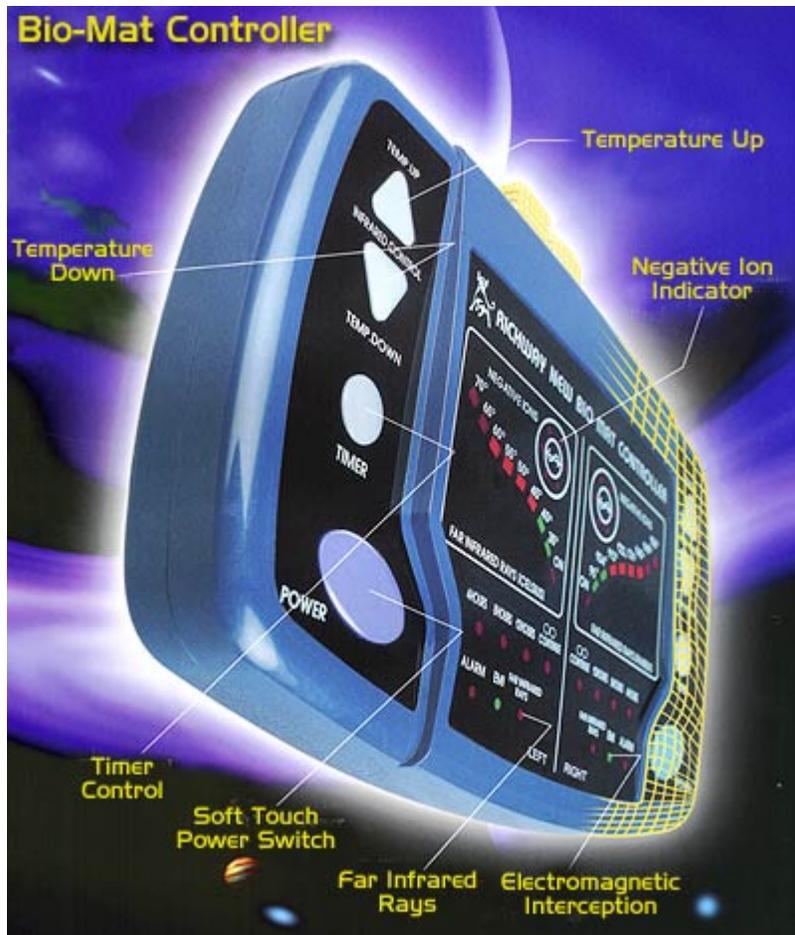

As you relax in the gentle heat of the Bio Mat, your body is actually hard at work, producing sweat, pumping blood and burning calories. According to a Journal of the American Medical Association report, in a single Infrared Ray sauna session you may burn as many calories as you would rowing or jogging for 30 minutes. So you lose weight - not just water.

- ***Removes Toxins***

Increased blood circulation stimulates the sweat glands, releasing built-up toxins and waste. Daily sweating can help detoxify your body as it rids itself of an accumulation of potentially carcinogenic heavy metals, as well as alcohol, nicotine, sodium, sulfuric acid and cholesterol.

- ***Relieves Pain***

The deep heat of the Bio Mat helps peripheral blood vessels dilate, bringing relief and healing to muscle and soft tissue injuries. Increased blood circulation carries off metabolic waste products and delivers oxygen-rich blood to oxygen-depleted muscles, so they recover faster.

MORE BENEFITS: Results show an improvement in the cleansing of the entire body. The absorption of Long Wave Infrared Rays by the human body begins with the elimination of carbon dioxide. All living bodies have toxins (i.e. waste material, poisons) that accumulate at the body's joints. Some people feel improvements in the body system in one day, but it may take several months for others. The difference in reaction time is explained by the fact that the health of different people can vary greatly. Some have a much more acidified body and have accumulated more waste material than others.

DEEP IMPACT POWER: Different from ordinary light beams, Long Wave Infrared Rays penetrate deeply. They warm our body from the inside out and stimulate our immune system. The Long Wave Infrared Rays penetrate deeply into our bodies and eliminate waste material through skin pores and promote blood circulation.

HEALING POWER: With the immune system improved, the body defense system represses increase of cancer cells by accelerating blastogenesis, or the reproduction, of healthy cells. According to tests on animals, the increase of malignant tumors like sarcoma and melanoma were notably suppressed. More research studies are being performed currently on the effect Far Infrared Rays have on cancer prevention. Suppression and prevention of the effects of arteriosclerosis have been performed by stopping the formation of peroxide and adipose. A positive clinical effect was found with patients who had blood circulation troubles. Other diseases which showed notable improvement with this treatment include rheumatoid arthritis, paralysis, diabetes, Raynaud's disease and progressive hardening of the arteries. People have given testimony to the positive effect on insomnia, chronic lumbago, arthralgia, menstruation pain, fatigue recovery and maintenance of general health.

The Far Infrared Ray mat warms deep inside the body while you are relaxing or sleeping, expanding clogged-up capillaries, thus helping our body's blood circulation. This action helps dissolve clogged-up acidic wastes into the blood stream. We recommend the users of this pad to drink alkaline water to neutralize the wastes as they come into the blood stream. Sometimes the Far Infrared Ray mat is called a lazy man's exercise tool because it works while we are sleeping. For people with a physical disability who may not be able to exercise properly, this mat is extraordinarily useful.

NEGATIVE IONS

Negative ions are only found in "clean air".

Studies of the relationship between negative ions and our health have been done by professional researchers who agree that our health is dependent on the amount and quality of negative ions in the air.

When the human body is fatigued, the blood is acidic. In a negatively charged ion environment, circulation improves, thereby alkalizing the blood. Negative ionization assists the body's normal regenerating cycle and provides relief from fatigue, headache and muscle ache. You'll find that you awaken more refreshed and more relaxed than before. You'll have that feeling of general well-being that only a good night's sleep can bring.

Negative ions help neutralize the body's acidity and raise alkalinity by increasing the sodium and calcium content of our blood. This aids in the removal of body waste products.

REASONS OUR HEALTH IS IMPROVED: Negative ions are a major factor in keeping us healthy. Ions are found everywhere in the air, and are a major element that provides energy to the human body. The human body consists of billions of cells, and each is enclosed by a cell wall. This cell wall performs many important roles, and one of these is to absorb nutrition and eliminate waste material. The function of the entire cell will be normal if ionization is optimal. The reverse will be true if there is a lack of negative ions. Absorption of nutrition and elimination of waste material is done more effectively in the presence of abundant negative ions.

Afflictions caused by an improper number of ions in the body: anemia, allergies, infirmity, climactic trouble, shoulder pain, lumbago, rheumatism, neuralgia and headaches, constipation, gastroenteritis, hepatitis, kidney trouble, unbalanced autonomic nerve and insomnia.

NEGATIVE IONS MAKE US HEALTHIER: Negative ions purify the blood, revive the cell, increase immunity, control function of the autonomic nervous system, decrease calcium in the blood and increase the blood sugar level.

The Bio-Mat 2000™ system is available for your personal use with **8 temperature settings from 95-158 degrees**. Use all night long or for an intensive sauna treatment. Owning your personal treatment mat is the single most beneficial step toward managing your health.
